7 Silver Bullion Program is the most successful silver
8 bullion program in the world;

9 (3) from fiscal year 1995 through fiscal year
10 2001, the American Eagle Silver Bullion Program
11 generated—

12 (A) revenues of \$264,100,000; and

13 (B) sufficient profits to significantly re-
14 duce the national debt;

15 (4) with the depletion of silver reserves in the
16 Defense Logistic Agency's Strategic and Critical
17 Materials Stockpile, it is necessary for the Depart-
18 ment of the Treasury to acquire silver from other
19 sources in order to preserve the American Eagle Sil-
20 ver Bullion Program;

21 (5) with the ability to obtain silver from other
22 sources, the United States Mint can continue the
23 highly successful American Eagle Silver Bullion Pro-
24 gram, exercising sound business judgment and mar-
25 ket acquisition practices in its approach to the silver

1 market, resulting in continuing profitability of the
2 program;

3 (6) in 2001, silver was commercially produced
4 in 12 States, including, Alaska, Arizona, California,
5 Colorado, Idaho, Missouri, Montana, Nevada, New
6 Mexico, South Dakota, Utah, and Washington;

7 (7) Nevada is the largest silver producing State
8 in the Nation, producing—

9 (A) 17,500,000 ounces of silver in 2001;

10 and

11 (B) 34 percent of United States silver pro-
12 duction in 2000;

13 (8) the mining industry in Idaho is vital to the
14 economy of the State, and the Silver Valley in north-
15 ern Idaho leads the world in recorded silver produc-
16 tion, with over 1,100,000,000 ounces of silver pro-
17 duced between 1884 and 2001;

18 (9) the largest, active silver producing mine in
19 the Nation is the McCoy/Cove Mine in Nevada,
20 which produced more than 107,000,000 ounces of
21 silver between 1989 and 2001;

22 (10) the mining industry in Idaho—

23 (A) employs more than 3,000 people;

24 (B) contributes more than \$900,000,000

25 to the Idaho economy; and

1 (C) produces \$70,000,000 worth of silver
 2 per year;

3 (11) the silver mines of the Comstock lode, the
 4 premier silver producing deposit in Nevada, brought
 5 people and wealth to the region, paving the way for
 6 statehood in 1864, and giving Nevada its nickname
 7 as “the Silver State”;

8 (12) mines in the Silver Valley—

9 (A) represent an important part of the
 10 mining history of Idaho and the United States;
 11 and

12 (B) have served in the past as key compo-
 13 nents of the United States war effort; and

14 (13) silver has been mined in Nevada through-
 15 out its history, with every significant metal mining
